MAULE'S SEEDS

1924

We thank our old customers for their past patronage and look forward to a continuance of same. Every new customer is assured of our endeavors to satisfy them and make them permanent buyers of Maule's seeds and roots year after year.

THIS BOOK IS A READY REFERENCE PRICE LIST

not a catalogue. For full description of the seeds and roots, see Maule's Seed Book for 1924, a copy of which will be sent you on request, if you have not already received one.

Better Seed Service to You

To do this it is necessary for us to discontinue the handling of Growing Plants, Nursery Stock, Implements, Insecticides and Fertilizers. For many years we have handled these items, which have been produced for us by other concerns. Consequently, we could not have complete control over them. Growing plants and nursery stock could not be shipped before the proper planting time. This caused a rush of shipments at the last moment and we could not avoid delays in transit or guarantee delivery in good condition.

Direct-to-the-Planter Savings

The Maule direct-to-you-the-grower policy makes it possible for you to secure growing seeds and roots at lowered prices. You will notice on comparison with other offerings that most Maule's prices are unusually low—most remarkably low when you consider the research, expert attention and innumerable tests needed to provide you with seeds of Maule quality.

For years it has been our policy of supplying the best strains of seeds and roots obtainable to market gardeners and florists.

Maule's Tested Seeds

Every new strain is tried out, and close attention given to the development or improvement of old favorites. Such care is at the foundation of the reputation that Maule's seeds have won, "Once Grown, Always Grown."

For proving before planting, every lot of seed that comes into our warehouse is subject to a germination test. No test will warrant a guarantee that seeds will grow. Results must depend upon weather conditions, soil and cultivation. We do all we can to start you right.

See parcel post rates, page 1.

4. **As to Crops.** Under the varying conditions of soil and climate, it is absolutely impossible for any seedsman to guarantee the results of seeds or roots. We, WM. HENRY MAULE, INC., therefore, in common with all American Seedsmen, give no warranty, express or implied, as to the description, purity, productiveness or any other matter of any seeds and roots we send out, and we will not be in any way responsible for the crop. We cannot, under any circumstances, assume responsibility for more than the actual price paid for seeds or roots. If the purchaser does not accept the goods on these terms, they are at once to be returned; but we do guarantee that we will use every effort to send you the best seeds and roots procurable, of such varieties as you may order.
